one design - that fits all!

The essence of blokart® is our passion to provide you with one design that is fun, fast and compact!

fun

Fun for the whole family. From die hard competitors to thrill seekers, the blokart® grin comes standard for all.

fast

Quick off the mark, the blokart® is perfect for tight pack situations in small areas. Being light and stable it allows for close exciting action, much like speedway or motocross racing.

compact

Weighing only 29kg (64lb) the blokart® is portable enough to fit in the trunk of most cars. It can be assembled from its unique carry bag without tools in just a few minutes.

engineering excellence

Add the amazing performance of this little machine and wow! blokart® delivers the goods!

Because of its small size and extreme manoeuvrability the blokart® can be used almost anywhere – from beaches to parking lots, sport and recreation grounds, tennis courts and even on ice!

The blokart® packs down into a unique carry bag which will fit in the trunk of most cars.

pro

If you want nothing but the best, the Pro is for you. With polished stainless steel chassis, keeping maintenance to a minimum, this machine is a show stopper. Includes high spec. stainless steel fittings and brushed finish floor pan.

Karts are supplied with 3m, 4m and/or 5.5m sails
(5 colour options) with a fibreglass, carbon or composite mast

*Talk to your local dealer about carbon options for a stiffer mast.

comp

With a tough Cr-Mo* chassis the Comp takes rugged to an entirely new level, engineered specifically for customers who play in extreme environments and appreciate the value of dependable tools that perform as promised.

Karts are supplied with a 3m, 4m and/or 5.5 m sail (5 colour options) with a fibre glass mast.

*a blend of chromium and molybdenum often referred to as chromoly steel

Talk to your local dealer about carbon options for a stiffer mast.

ice blades

Is there anywhere you can't sail?
From blokart® to ice kart in minutes.
Turn your lake, pond or reservoir
into a winter race track, with carving
turns cutting tracks through the ice.
It might be cold but it'll warm your
soul.

photo. Andrius (www.qphoto.net)

pod

Cleaner, dryer, warmer, faster...the elements are no longer an excuse to stay at home.

The Pod reduces drag for those wanting to increase speed.

Personalise your Pod with graphics.

Consists of Pod skin, windscreen, stainless footbar and fittings.

katalyst

blokart® in partnership with Katalyst® Marine brings you the Katalyst® “blokart® Edition”, an innovative and exciting accessory which allows you to sail on the water.

Following the blokart® ethos of “fun, fast and compact” Katalyst® is a light weight performance micro multihull that packs down to be transported on a roof-rack and easily stored.

Set-up is fast and easy. Simply connect the two hulls, attach your blokart® (less the wheels), connect the steering and you are off.

The combination of steering with a handlebar and a light action main sheet, the blokart® Edition provides an exciting sailing experience that everyone can have a go at.

Use a Beach Trolley to run your Katalyst® down to the waters edge and a Katalyst® mount to attach the hulls to your roof-rack for secure strapless transport.

KATALYST

blokart edition

shadow

Double-up. The ultimate family accessory. The Shadow clips to your existing blokart® turning it into a two-seater.

Sit beside your co-pilot for an unforgettable experience. Perfect for the young ones, sailing tuition, disabled sailors or transporting your fishing tackle up the beach!

Works well with the 5.5m sail in light wind.

Available in Pro (stainless steel) only complete with fittings and carry bag.

accessories

big foot

Run a blokart® 6x4.00 rear wheel on the front of your kart when sailing on softer surfaces or for improved handling. The Big Foot comes complete with a purpose built fork. (Not compatible with a disc brake)

disc brake

Designed as a safety and performance aid when sailing in urban settings with limited space.

An awesome tool for hire operators, demonstrations and the disabled. Equally useful for racers when jostling for position. The system features a quick release brake lever, parking brake and fully adjustable caliper.

ice / sand brake

Slow down quicker with the clawed handbrake which mounts on either rear axle.

performance accessories

mast crane

Top your performance blokart® off with a mast crane by replacing the turban with a sealed bearing crane, which allows the sail to rotate. Mast crane, ultra downhaul and full carbon mast..... the ultimate performance set-up!

batten tensioning system

The blokart® sail comes standard with our new easy bungee tensioning system for the battens. To get the competitive edge, the performance batten tensioning system allows you to fine-tune your batten tension.

windicator

Know the wind direction at a glance, this lightweight device clips onto your mast and is 100% accurate in only 2 knots of wind.

ultra downhaul

Fine tuning at your fingertips. Adjust and cleat your downhaul as the wind changes to optimise your sail shape. With different mounting options, it's just a matter of personal preference.

accessories

MSP (Mast Sleeve Protector)

Help prevent your sail from being damaged when your 'mates' tip over on asphalt or rough surfaces.

5-point harness

blokart® harness restraint for pilots with compromised muscle tone. Fit to your blokart® with no tools in minutes.

seat belt

Retro fit this new seat belt to your kart. Taken from an aircraft application, the new blokart® seatbelt is foolproof; all stainless steel components will prevent the clip from malfunctioning.

foot bar extension

This clever device allows those with long legs to fit comfortably in a blokart®. Clamps over keel tube. Perfect for those over 6ft tall.

junior foot bar

The junior footbar offers secure footing for those 4ft and under. Simply clamp on existing footbar and adjust to fit.

sails & masts

ultra carbon base

Designed specifically to combine with the full carbon to give a stiffer mast for the 5.5 sail, the two piece

Ultra Carbon Kit is the stiffest mast option.

Your blokart® will come with a fibreglass mast but you have the option to up-grade to a stiffer Combo Mast or the ultimate Full Carbon Mast.

Combo Mast

3.0m Ultra|Ultra|Glass|Glass

4.0m Ultra|Ultra|Carbon|Glass|Glass

5.5m Ultra|Ultra|Carbon|Glass|Glass|Glass

Carbon Mast

3.0m Ultra|Ultra|Carbon|Carbon

4.0m Ultra|Ultra|Carbon|Carbon|Carbon

5.5m Ultra|Ultra|Ultra|Carbon|Carbon|Carbon

Individual mast sections are available so you can customise a mast to suit your application.

Talk to your dealer about options.

sails

look the part

helmet

Protect your nut in safety and comfort. The blokart® helmet complies with CPSC & CE1078 safety certifications. It has a unique dial headlock for the perfect fit, padded ear flaps and chin strap. Available in Matt Black or Matt Grey.

flags, windsocks, keyrings

Show the world! Mark out your sailing venue, stick one on your front lawn, check wind direction, promote the brand!

t-shirts & caps

The perfect replacement for your current favourite tee and cap, available in girls and guys sizes.

sail quiver bag

Big enough to carry all your sails and your Pod, long enough for an un-folded 5.5m sail. Perfect for keeping all your gear together especially when travelling.

mast bag

Padded bag holds your mast sections individually to keep them from being damaged in storage

one blokart nation

From small beginnings, the blokart® community now extends all over the world. Whether it's a safari through the Gobi desert, the Lithuanian Ice-blokart® Championship or you and your family heading down to the beach for a blast, karters from all over the world are coming together to share the thrill of blokart® sailing.

Anyone, regardless of age or gender can enjoy competitive racing or just blasting around with friends. From the first blokart® in 2000 to today, your kart will never be too old.... and neither will you!

Regional, national and international events, meetings and adventures are occurring regularly – see www.blokart.com for more details and to find your local club.

blokarts® are available worldwide - check out our website for dealers, clubs, forum, upcoming events, downloads and the latest accessories.

about us

With thousands of karts around the world blokart® continues to exceed our wildest expectations.

We designed the blokart® and took it to market in 2000 and has since realised the dreams of many. For the recreational sailor, blokart® is a fun, fast, compact activity that allows them to explore the globe. For the competitive, a chance for all to compete on a level playing field under our one design rules. For the family, our range of accessories means everyone can get involved.

We welcome you to join this sailing revolution, we know you will enjoy the ride.

Regards

Paul & Matt Beckett
